Engagement Maximizer

The Engagement Maximizer is a customized program (for your unique situation) of engaging techniques designed to multiply and magnify, creating high impact and long-lasting results. Your organization will lock-in-learning to create a culture of engagement.

Some of the engagement strategies available are...

Keynotes

Emcees

Workshops

Videos

Video Courses

Team Building

Engagement in a Box

Consulting

Harvard Business Review, Gallup and other leading organizations have discovered that a 1% increase in employee engagement

can lead up to a 9% increase in revenue.

Time to use this secret power in your life to improve your bottom line and peace of mind.

Would these high impact outcomes benefit you and your company?

1. Learn how to deal with stress and turn it into a positive force.
2. Develop the techniques to stay engaged and be present, even when life (and the overwhelming changes that are part of life in 2021) conspires to steal your focus and drive.
3. Transform team energy from disjointed, frustrated, competitive and negative to joyful, collaborative, creative and positive.
4. Increase productivity: In Gallup's research only 13 percent of all employees are "highly engaged," and 26 percent are "actively disengaged."
5. Higher Retention and Lower Turnover

A few words from our clients:

"This was definitely the best team building exercise I've done not just at Oracle, but in my 15 year sales career. It was fun, engaging, and everyone felt good afterward. It was a perfect blend of needing to concentrate on the work/teamwork and enjoying the experience. Creative and worthwhile."

"The Engagement Maximizer was amazing! It was more than we could have hoped for. The way the keynote/workshop fit so perfectly with the Mud Pie Kitchens, it all came together and the day just kept building on each event. The whole far exceeded the parts. You were right when you said 1+1+1 was more than 3. WAY MORE than 3!!! Our company goals were not just met but exceeded!" Ryan Bosa, President Bosa Development

"This was, by far, the most effective and engaging event of this type I have attended since starting with Oracle 3 years ago. Roger was dynamic, very well informed, the content was relevant, and I walked out of the session with applicable tools that I am excited to use. His session and the following one in which we built a bench were absolutely the highlight of the weekend for me, personally and professionally."
